(wPOWER) Promoting Women's Critical Role in Clean
Energy Solutions to Climate Change
August 2017

Request For Quotation

Background: The Partnership on Women's Entrepreneurship in Renewables (wPOWER) is seeking requests for quotation from IT Service Providers to provide maintenance and support for its computer systems and networks.

Examples of services required include:

- installing and configuring computer systems,
- diagnosing hardware and software faults,
- solving technical and application faults alongside
- other general IT requirements.

wPOWER may seek the above mentioned services on an ad hoc basis although we will aim to provide a 24 hour notice period for services required. For this reason, preference will be given to IT firms or professionals located at the Nairobi Garage offices in Nairobi's Westlands.

How to Submit your Quote

- Quotations to be made to include an hourly rate.
- Submission must be received via email by Tuesday, 5th September at 5:00 PM.
- Address your submission to: info@wpowerhub.org
